Reflection on E Safety

• You ~~shout~~ always need to turn off your devices when your finished with them.

• Make sure you have privacy settings on your apps.

• Always report dangers to Parents/Online and police.

• Keep personal things to yourself, like name, address, age, passwords.

You need to make sure you shut things off because someone could take your device and see your private things. Ask to download things because it could be dangerous, rude or mean. Age appropriate games or apps to stop getting viruses and for your safety. **STAY SAFE.**
